

# Emirates NBD Asset Management Limited

Emirates NBD Asset Management Limited ("Emirates NBD AM") provides a full range of investment products, offering exposure to the regional markets as well as global markets, covering all of the main asset classes, structured on either a Sharia compliant or conventional basis.

The personnel of the unit are highly skilled, forming a team of over 40 financial specialists, coming from 10 different countries, and representing a wide array of expertise in all major international markets, making it one of the largest asset management businesses in the region.

## Our Objective | a better future

" To be the preferred supplier of investment products and services in the region. "

Emirates NBD Asset Management Limited has been created to cater to the diverse client base served by its main stake-holders, Emirates Bank International and Emirates Islamic Bank.

Emirates NBD Asset Management Limited provides investment products and services directly from its base at the DIFC, through the Al Shaheen Club at Emirates NBD, Ethmar at Emirates Islamic Bank, as well as through our international channels and partners.

Emirates NBD Asset Management Limited provides a full range of investment products, offering exposure to the regional markets as well as global markets, covering all of the main asset classes, structured on either a Sharia compliant or conventional basis.

The personnel of the unit are highly skilled, forming a team of over 40 financial specialists, coming from 10 different countries, and representing a wide array of expertise in all major international markets, making it one of the largest asset management businesses in the region.

## Our Method | a better future

" To provide appropriate, attractive and innovative investment products that will satisfy the risk and reward appetite of our clients. "

We believe that the acquisition of undervalued assets will deliver superior investment returns and satisfied customers, and we are therefore committed to conducting diligent research to uncover the best investment opportunities that suit the needs of our clients.

These opportunities come from a variety of asset classes including money market, fixed income, equities, property, commodities and alternative strategies.
