This information, including any expression of opinion, has been obtained from or is based upon sources believed to be reliable, and is believed to be fair and not misleading. Any opinion or estimate contained in this presentation is subject to change without notice. Neither EmiratesNBD Group nor any of its directors or employees give any representation or warranty as to the reliability, accuracy or completeness of the information, nor do they accept any responsibility arising in any way (including by negligence) for errors in, or omissions from the information. For further details of the investment products available from the EmiratesNBD Group, please contact your local Emirates Bank International/Emirates Islamic Bank/National Bank of Dubai Branch. This document is provided for information and illustration purposes only. It does not constitute a solicitation, recommendation or offer to buy or sell any investment product or subscribe to any investment management or advisory service. Prospective investors in a Fund must obtain and carefully read the Fund's most recent Private Placement Memorandum and Supplement as well as seek separate, independent financial advice if required prior to making an investment in the Fund to assess the suitability, lawfulness and risks involved.

This presentation is solely for information and internal circulation only and may not be published, circulated, reproduced or distributed in whole or part to any other person without the written consent of Emirates Investment Services Ltd. It is directed to persons authorized to invest in the Fund and residing in jurisdictions where the Fund is authorized for distribution or where no such authorization is required. The Fund is intended for sophisticated investors only who understand the risks involved in investing in the Fund and can withstand any potential loss there from. The Fund is not guaranteed and historical performances are not indicative of the future or likely performance and should not be construed as being indicative of or otherwise used as a proxy for the future or likely performance of the funds. The value of the investment and the income from it can fall as well as rise as the Funds are subject to investment risks, including the possible loss of the principal amount invested. The information contained herein does not have any regard to the specific investment objectives, financial situation or the particular needs of any person. This information has been distributed by 'Emirates Investment Services Ltd (EIS)'. EIS is duly licensed and regulated by the Dubai Financial Services Authority. The price of shares/units/notes and the value of segregated accounts and any income arising from them may fall as well as rise. Past performance is not necessarily a guide to the future and investors may not get back the full amount invested. When a subscription involves a foreign exchange transaction, it may be subject to the fluctuations of currency values, which may adversely affect the value, price of income of any security or related instrument mentioned in this presentation. It should be noted that some investments may not be readily marketable. It may therefore be difficult for an investor to sell his/her investment or obtain reliable information about its value and the extent of the risks to which it is exposed. Further, some investment offerings are involved in highly specialised forms of investment and involve risks and transaction costs not normally associated with standard investments in securities. Investment returns will fluctuate and are subject to market volatility, so that an investment when redeemed or sold, may be worth more or less than the original cost. Investments in property and other non-traditional asset classes may not be readily realisable and therefore a delay in paying redemption proceeds or significant costs in realising an investment might apply. Kindly note that any property funds mentioned above can only be sold through Emirates NBD group/associate companies.
