

Compound Interest Calculator

See how your savings can grow over time with the power of [compound interest](#).

Financial Wellbeing
with Emirates NBD

Initial Investment

This is the lump sum you're putting in on day one, your starting balance before any monthly contributions or interest are added.

How much are you starting with?

Monthly Contribution

The amount you plan to deposit regularly every month.

How much will you add each month?

Duration

The total number of years you plan to keep this money invested, contributing monthly and letting it grow.

How long will you let your money work for you?

Estimated Interest Rate

Your expected annual rate of return, expressed as a percentage (for example, 0.06 = %6).

How fast do you expect your money to grow each year?

Estimated value at the end of your investment period
