Get detailed reports and acknowledgment from Noqodi.

Manage payment approvals through an online authorisation matrix

Available 24x7

smartBUSINESS supported payments

Utility payments are essentially bill payments that a company will have to pay towards their electricity and water bills on a monthly or a periodic basis. You can make bill payments for these service providers through smartBUSINESS:

· DEWA – Dubai Electricity and Water Authority
· SEWA – Sharjah Electricity and Water Authority
· FEWA – Fujairah Electricity and Water Authority
· ADDC – Abu Dhabi Distribution Company
· Salik – Road Usage Fee System
· Etisalat – Telecom, Television and Internet Service Provider
· DU - Telecom, Television and Internet Service Provider

Register once and access all your payments

Register once with the ID provided by the service provider and make monthly payments within seconds. Initiate payments through single, basket and file upload method and easily manage your payments with an Online authorization matrix.

- Assign products based on the user role and account access

- Real-time validation with the service provider and payment of the outstanding bill amount

- Available 24x7

- Detailed MIS reports available online for tracking purposes
