Investment Objective

The Emirates MENA Fixed Income Fund is a feeder fund to the Emirates NBD SICAV – Emirates MENA Fixed Income Fund, a sub-fund of the Luxembourg domiciled Emirates NBD SICAV. The US Dollar denominated open-ended underlying fund will invest in a diversified portfolio that aims to achieve a high level of income as well as capital growth, predominantly through a diversified portfolio of MENA debt securities of varying maturities along with cash and other ancillary instruments, such as deposits. The fund may also take on exposure to issuers outside the MENA region provided a significant part of their business activity is derived in the region. Additionally, certain share classes of the fund will also distribute income on a semi-annual basis. Declarations will be made at the end of June and December of each year.

Team

With one of the longest track records in the MENA region, Emirates NBD Asset Management operates as an independent asset manager based in the DIFC yet backed by Emirates NBD Bank PJSC, one of the largest financial services in the UAE.

The team employs sophisticated techniques to drive performance and control risk. This helps manage volatility during periods of market stress, as well as maintain performance above major peers during most periods. The Head of Fixed Income, Angad Rajpal has been in the industry for almost twelve years and is assisted by Director of Fixed Income Parth Kikani and Senior Portfolio Manager Chandru Bhatia, both of whom have over 10 years' industry experience. The portfolio managers are supported by three analysts, who provide in-depth company and security analysis, as well as a dedicated risk management function. The risk management function reports independently to the Investment Committee which provides investment oversight.
